

The Very Hungry Caterpillar - 1

Sequencing Cards -
Use With Stand or Lay on Table

Having Fun:

Children sequence the foods the caterpillar eats in the story. When the stand is turned around or when the cards on a table are flipped the cards make a butterfly.

You Will Need:

- Print on cardstock the patterns titled “The Very Hungry Caterpillar 1.”
- 14” section of a water “floaty”

Putting It Together:

- Cut the 14” floaty section in half lengthwise to make the stand (you get 2 stands per section).
- Cut apart the foods and butterfly cards.
- Depending on if you are using the stand or laying cards on a flat surface, follow the instructions and glue the butterfly cards to the back of the appropriate food card.
- Laminate for durability.
